

On order, the 193rd Brigade Support Battalion (BSB) deploys to a theater of operations and provides responsive and uninterrupted sustainment support to elements of Task Force Operations as part of USNORTHCOM CCCMRF 10.1, and other organizations as required.

The 193rd BSB is made up of three different companies: Headquarters and Headquarters Detachment (HHD), Distribution Company, and the Field Maintenance Company.

The HHD provides command and control for assigned and attached units, provides Combat Service Support (CSS) to customer units internal to the BSB, and provides human resources, logistics, training, security, communications, and religious support to the BSB.

193rd Brigade Support Battalion FACT SHEET

Distribution Company :

- Provides direct transportation support to the Task Force
- Conducts receipt and distribution support of general supplies.
- Maintains limited Class II, III(P), IV, and IX ASL
- Purifies, stores, and distributes potable water
- Receives, stores, and issues bulk petroleum

Support Operation (SPO)

Primary functions include coordinating CSS support to customer units external to the BSB, performing Brigade logistics preparation of the area of operation, and acting as the distribution management support element for the BSB. There are seven cells within the SPO: Supply and Service, Maintenance, Transportation, Ammunition, Combat Service Support Automation Management Office (CSSAMO), Mortuary Affairs, and Plans.

Field Maintenance Company:

- Provides field maintenance support to the Brigade.
- Performs maintenance management for Brigade elements located in the Base Support Area (BSA).
- Provides reinforcing maintenance support to the Forward Support Companies (FSC).

193rd BSB CCMRF Mission:

On order, the 193rd Brigade Support Battalion deploys and provides support to the Task Forces Operations at a designated location within USNORTHCOM Joint Operations Area, and executes Chemical, Biological, Radiological, Nuclear, and high yield Explosive (CBRNE) Consequence Management (CM) operations in support of civil authorities in order to save lives, mitigate human suffering, and facilitate recovery operations in a CBRNE environment
